Dear Mr. Hagen:

Re: Disposal of Asbestos from  
Lever Brothers Company

This letter acknowledges the request for disposal dated December 15, 1980, from Lever Brothers Company.

Approval is hereby granted for disposal of 50 cubic yards on a one-time-only basis of asbestos from Lever Brothers Company at the Gary Land Development Landfill, OPP No. 45-2, Lake County. The waste is to be mixed with refuse and covered with a minimum of six inches of cover soil immediately.

The approval is granted subject to the following conditions:

1. The generator and/or hauler must contact you to notify you of the time of disposal and conditions of shipment.
2. Appropriate protective clothing should be used during handling and disposal to insure proper protection from exposure to the material, especially protection from inhalation.
3. All asbestos must be sufficiently dampened to prevent airborne contamination during compaction.

This approval will be revoked if the landfill fails to maintain compliance with 330 IAC 4-1, et seq. (Regulation SPC 18). Any necessary local approval must be obtained from the Lake County Health Department.

If you have any questions, please contact Mr. Steven Wakefield of the Solid Waste Management Section at AC 317/633-0178.

Very truly yours,

*Oral H. Hert*
